EGG-O-SEE

is *whole-wheat* in its best form---the form most palatable, most digestible and most easy of assimilation.

Made only from selected California white wheat---the finest grade of this cereal. It is steam-cooked for two hours, flaked and baked at high temperature---each flake thus being scientifically toasted to a crisp and delicate brown. These flakes, each as thin as fine paper, are so readily affected by the ptyalin that the final conversion of starch into grape sugar in the intestine, is accomplished so easily as to cause no distress to the patient who is unable to digest bread and other starchy foods.

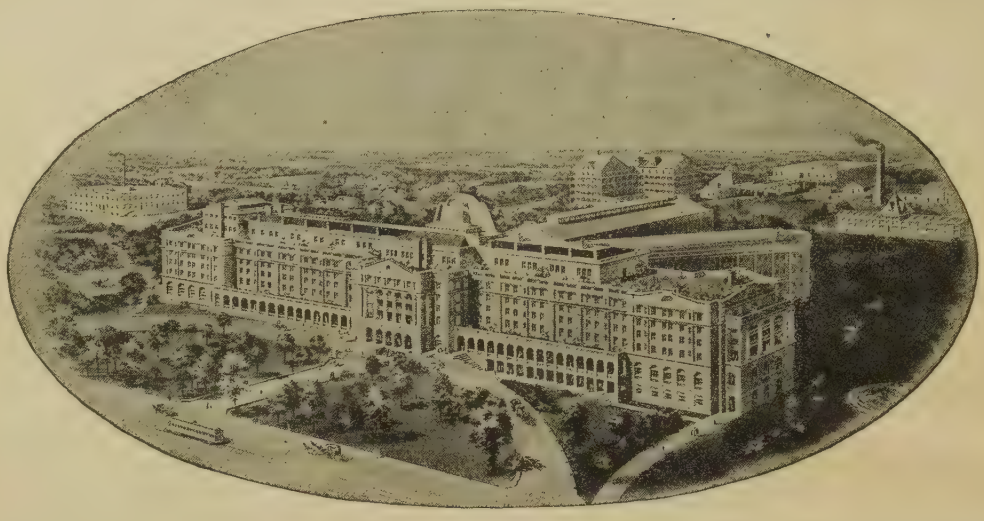
EGG-O-SEE is so easily digested and of such high nutrient value that it is of special service to the dyspeptic, to those convalescing from acute diseases, in pregnancy where nausea and vomiting are readily induced by food, and in other forms of gastric neurosis.

EGG-O-SEE is a valuable addition to the dietary of children, from dentition to maturity, as it retains all of the phospates, nitrates and other mineral elements of whole-wheat so essential to the growth of bones and teeth. Also sufficient of the cellulose (fiber) to protect against constipation.

EGG-O-SEE is honestly made and marketed. It is not exploited as a dietetic fad or 'food cure'. It is simply selected whole-wheat, so prepared as to be appetizing and easily digested. It offers an abundance of carbohydrates, a sufficiency of protein and fat and the organic salts of wheat. Doctor, we want you to investigate EGG-O-SEE and recommend it to your patients. We shall be glad to send you a trial quantity for your own use.

EGG-O-SEE CEREAL COMPANY
Quincy, Ill., and Buffalo, N. Y.

ANALYSIS OF EGG-O-SEE



Moisture	9.73
Proteids	10.43
Fat	2.81
Ash	2.47
Crude Fiber	1.31
Carbohydrate	73.25
	100.00

Anal. of Mineral Matter (Ash)

Ferric Phosphate	1.30
Calcium Phosphate	63.30
Potass. Carbonate	33.40
Silica, Etc.	1.90
	100.00

By calculation from the above figures I find the total phosphoric acid anhydride in the ash to amount to 29.36 per cent.

THE BATTLE CREEK SANITARIUM

IS AN UNEQUALLED PLACE FOR CHRONIC INVALIDS

Incorporated --- No Private Interest

This institution is the headquarters for physiologic therapeutics. For forty years the Battle Creek Sanitarium has been a pioneer in the physiologic or natural method of dealing with chronic disorders. The Battle Creek Sanitarium System of Physiologic Therapeutics is not an experiment. Its success has been so great that one hundred institutions following its methods in different parts of the world are now required to meet the demands of the invalid public.

A change of climate, a visit to some health resort, gives temporary relief, but a rebuilding of the body by physiologic methods is essential for durable results.

If your patient needs the benefit of the physiologic method, a change of habits, relief from business cares and home worries, the Battle Creek Sanitarium course of health training will probably make a new person of him.

The Battle Creek Sanitarium System accomplishes much even with so-called incurables. In all forms of neurasthenia and dyspepsia, in rheumatism, gout, insomnia, pelvic disorders, obesity and nearly all cases of chronic diseases in which serious organic breakdown has not already occurred, success is certain with the patient's intelligent co-operation.

FOUR THOUSAND PHYSICIANS

have sent patients to the Battle Creek Sanitarium and testify to the good results of the system of Physiologic Therapeutics which has been evolved at this, the first and most elaborately equipped of Sanitariums.

It has cost One and a Half Million Dollars to create this great healing establishment, which is rather a school of health than a hospital.

Homelike, cheerful, sound and sensible, in line with the foremost thought in all medical progress, and backed up by the successful results of forty years' experience.

Pays no dividends and hence no taxes. The invalid public have the benefit of all earnings. Rates are moderate.

For further particulars write for Booklet "Ad."
